- Any evidences of work experience undertaken during Academia
- Valid passport and 3 passport sized photographs
- Copies of English proficiency tests such as IELTS or TOEFL
- Proof of financial statement to cover tuition fees and living expenses throughout the entire course.

➤ Course Description

- Students who wish to pursue a Doctorate in Medicine (MBBS+MD) in the USA after completing high school can enroll in Atlanta (State University) for a two year, (90 credits) Pre-Medicine program. After completion of Pre-Med, with or without MCAT, they can do pre-clinical studies (2 years) also along with one of the Bachelor programs in (State University) in Atlanta. After completion of Pre-Clinical and Bachelor Degree from State University, students can

enter clinical rotation (two years) along with class room based special classes for USMLE I, II, III. Based on clinical rotation and USMLE score, students will be selected for matching program (specialization) and therefore can become a junior doctor and can complete Doctor of Medicine in the USA. This qualification is recognized worldwide.

➤ Fees and information:

- For medical entrance and document evaluation, educational background checkup, criminal history etc... cost \$9620.00.
- The average course fees for pre-med per semester is \$5500 - \$6000 (total of 4 semesters).
- Clinicals/basic science is \$6000 - \$6500 on average (total of 5 semesters).
  - Clinical rotation is \$7000 - \$8000 on average (total of 6 semesters).
  - Special training in USMLE I, II & III is \$2000 each.
  - After they reach the USA, students need to pay the university on a semester basis.

Doctorate of Medicine in USA through Canada

➤ Minimum entry requirement:

**USA and Canada**

- Candidate required to complete **SAT** or **ACT**
- Candidate should have a high school GPA of **3.0**

**Europe**

- Minimum of **CCC** at A-level in 3 subjects or an equivalent qualification
- Minimum of Grade **C** in GCSE/O-level or equivalent in English Language

**International Qualifications**

- **Pass** at high school level
- English requirement: - IELTS with a **minimum** score of **6** (with a score of **5.5** in individual modules) & TOEFL score of **550 paper** or **79 IBT**
- Students without IELTS required to study English for a minimum of 6 months (ESL).
- High school transcript should be evaluated with approved agencies to understand the equivalent qualification in USA

- Document requirements:

  - Any evidences of work experience undertaken during Academia
  - Valid passport and 3 passport sized photographs
  - Copies of English proficiency tests such as IELTS or TOEFL
  - Proof of financial statement to cover tuition fees and living expenses throughout the entire course.
  
- Course Description
  - Students who wish to pursue a Doctorate in Medicine (MBBS+MD) in the USA can enroll in Canada for a two year, (90 credits) Pre-Medicine program. After completion of Pre-Med, with or without MCAT, they can do pre-clinical studies (2 years). **However, continuing to complete Medicine in Canada strictly requires a strong pass in the MCAT.** After completion of Pre-clinicals/basic sciences, students can enter clinical rotation (two years) along with class room based special classes for USMLE I, II, III. Based on clinical rotation and USMLE score, students will be selected for matching program (specialization) and therefore can become a junior doctor and can complete Doctor of Medicine in the USA. This qualification is recognized worldwide.
  
- Fees and information:
  - For medical entrance and document evaluation, educational background checkup, criminal history etc... cost \$9620.00.
  - The average course fees for pre-med per semester is \$5500 - \$6000 (total of 4 semesters).
  - Clinicals/basic science is \$6000 - \$6500 on average (total of 5 semesters).
    - Clinical rotation is \$7000 - \$8000 on average (total of 6 semesters).
    - Special training in USMLE I, II & III is \$2000 each.
    - After they reach Canada, students need to pay the university on a semester basis.
  
- How to apply:
  - All potential students must combine clear scanned versions of all relevant documents into a PDF file and send electronically to Bless Education Group.
  
- Doctorate of Medicine:
  - Students who wish to pursue a Doctorate in Medicine (MBBS+MD) in Canada have to surpass great competition. Most of the Canadian students complete the Doctor of Medicine in USA before going for

work in Canada. After completing high school, students can enroll for three year, (90 credits) Pre-Medicine program in Canada. After completion of Pre-Med, with or without MCAT, they can do pre-clinical studies (2 years). After completion of Pre-Clinical, students can enter clinical rotation (two years) along with class room based special classes for USMLE I, II, III. Based on clinical rotation and USMLE score, students will be selected for matching program (specialization) and therefore can become a junior doctor and can complete Doctor of Medicine in the USA. This qualification is recognized worldwide.

### Doctor of Medicine through South America

➤ Minimum entry requirement:

#### **USA and Canada**

- Candidate required to complete **SAT** or **ACT**
- Candidate should have a high school GPA of **3.0**

#### **Europe**

- Minimum of **CCC** at A-level in 3 subjects or an equivalent qualification
- Minimum of Grade **C** in GCSE/O-level or equivalent in English Language

#### **International Qualifications**

  - Any evidences of work experience undertaken during Academia.
  - Valid passport and 3 passport sized photographs.
  - Proof of financial statement to cover tuition fees and living expenses throughout the entire course.

➤ Course Description

- Students who wish to pursue a Doctorate in Medicine (MBBS+MD) in the USA after enrolling in a medical school outside of the US can enroll (depending upon pre-requisite) in US Pre-Medicine program/pre-clinical/clinical rotation, USMLE I, II & III, ICM, hands on training, Observationship, Core & Elective rotation, Clerkship etc... Based on clinical rotation and USMLE score, students will be selected for matching program (specialization) and therefore can become a junior doctor and can complete Doctor of Medicine in the USA. This qualification is recognized worldwide.

➤ Fees and information:

- For medical entrance and document evaluation, educational background checkup, criminal history etc... cost \$9620.00.
- The average course fees for pre-med per semester is \$5500 - \$6000 (total of 4 semesters).
- Clinicals/basic science is \$6000 - \$6500 on average (total of 5 semesters).
  - Clinical rotation is \$7000 - \$8000 on average (total of 6 semesters).
  - Special training in USMLE I, II & III is \$2000 each.
  - After they reach the USA, students need to pay the university on a semester basis.

Doctorate of Medicine in USA (For foreign medical graduates)

For medical students who have **completed MBBS or MD** can pursue to study further to obtain the qualification of Doctorate of Medicine in USA. Bless education group (USA) can arrange USMD programme in Atlanta. USMD is recognized by medical councils all over the world (including MCI). They are able to practice medicine without writing any other exams. For those who study MBBS/MD courses in India, China, Russia or other European countries, this USMD program in Atlanta is a great blessing.

➤ Course Details

- USMLE I, II, III classroom based special training.
- Arrange clinical rotations for a minimum of 3 semesters.
- This includes hands on training, observationship, core and elective rotations, clerkship, ICM etc... which are all part of the preparation for USA matching program
- After successfully completing USMLE I, II, III and clinical rotations, student will match (USMD) and will be appointed as junior doctor and in conjunction can complete the doctorate of medicine programme.

➤ Average Course Fees:

- For medical entrance and document evaluation, educational background checkup, criminal history etc... cost \$9620.00.
- USMLE I classes - \$2000 to \$2500
- USMLE II classes - (CK) \$2000 to \$2500 (CS) \$2500 - \$3000
- USMLE III classes - \$2000 to \$2500
- Clinical Rotations - \$7000 to \$7500

#### Fast track route to Medicine for UK citizens and residents

As UK has decided to leave the EU after the results of the referendum, students who wish to practice medicine in UK can do so without undertaking PLAB after completing the USMD programme offered in the USA. This also applies to those who have not been successful in gaining a seat at a UK medical school. UK students studying medicine at a European institution are also welcome to apply for the USMD programme. For entry requirements see the relevant sections above.

#### Further Information

Bless education group can do all arrangements for **Medical Admission; Pre Medical; Pre Clinical; Clinical Rotation; ICM; Hands on training; Observationship; Core & Elective rotation; Clerkship; Recommendation; class room – based special USMLE I, II, III training, University transfer program etc...**

#### Other higher studies, Immigration & Settlement in the USA, Canada & Europe

Students with 12<sup>th</sup> standard onwards need to pay only the first semester fees; then work part time and study for MBBS + MD; Engineering, Para-Medical; Nursing; IT, Bachelor, Masters etc... in USA, Canada & Europe. Then they can apply for work permit, P.R and citizenship also. Most of students do not know that they can study in Austria or Poland with less expense and with higher standard than in India, without IELTS exam or other English tests. These courses are recognized by European Union; so it is easy for them to settle in Europe and also easier to obtain USA or Canada Visa. It may seem unbelievable that the initial expense for MBBS + MD program is \$2000 and \$6000 for other courses. The lack of knowledge that students can complete their education in foreign countries without incurring much expenses, will deprive them of their opportunities to study and settle abroad. In most cases, they have to study the same courses again which they had completed in their homeland. Bless Education Group (USA) has vast experience in this field and has helped thousands of people in the past.

If you require further information about any of the Programmes mentioned above please contact Bless Education Group telephonically or by email.
